

Take Action for You Heart: Get Starte

#hearthealth

Thanks to our friends over at National Heart, Lung, and Blood Institute this Take Action for Your Heart: Get Started! Fact Sheet is designed to help you take the first steps towards a healthier heart and a happier life.

Heart disease is the leading cause of death in the United States, but it can often be prevented. Adopting a heart-healthy lifestyle can help you reduce the risk of heart disease and its risk factors. Take action to protect your heart by following these tips.

🥸 Get Enough Quality Sleep

Lack of sleep or getting poor-quality sleep increases the risk of having high blood pressure. heart disease, and other medical conditions.

- Try to aim for 7-9 hours of sleep a night.
- Go to bed and wake up at the same time each day.
- Exercise regularly, but not within 2-3 hours before bedtime
- Avoid caffeine and nicotine.

Eat Better

A flexible and balanced eating plan can help lower your high blood pressure and improve your cholesterol.

- Follow the **Dietary Approaches to Stop Hypertension** (DASH) eating plan, which can help you create a hearthealthy eating style for life.
- Read nutrition labels to pick the food lowest in saturated fat, sodium, and added sugars.
- Try a mix of lean cuts of meat, eat fish once or twice a week, and eat two or more meatless meals each week.
- Consider whole fruits, dried fruits, unsalted rice cakes, fat-free and low-fat yogurt, or raw vegetables as a snack.

Be More Active

Getting enough physical activity helps to lower vour risk of heart disease and stroke.

- Adults should spend at least 150 minutes (2 ½ hours) each week doing physical activity.
- Sit less! Take the stairs. Park farther away. March in place or take a walk around the block.
- Try muscle-strengthening activities like lifting weights, working with resistance bands, doing sit-ups and push- ups, or some forms of yoga—whatever works for you.
- If you don't have a lot of time in your day, try being active for 10 minutes at a time. Anything that gets your heart beating faster counts!

Manage Stress

Learning how to manage stress with healthy coping strategies helps improve your emotional and physical health.

- Use relaxation techniques that combine breathing and focused attention on pleasing thoughts and images to calm the mind and body.
- Consider meditation, as it can help to lower stress.
- Take a yoga class to help lower stress and improve mindfulness. It may also offer you a supportive community.
